GEORGE D. NOWELL.

COLLECTOR OF TAXES:

FRANK I. DECATUR.

AUDITORS:

CHARLES W. BROWN,
HENRY KIMBALL.

SUPERVISORS:

FRANK I. DECATUR,
CHARLES H. SCRUTON,
CHARLES W. HOWE.

RETROSPECT.

In presenting the following report for the year ending March 1st, 1891, we desire to call the attention to a few points that you may have in mind as you make your criticisms, a duty to which everybody is supposed to do their share, and a privilege that cannot be taxed.

First of all, in coming into office in March, 1890, we found five suits for damages on the highway already begun. Considerable time was spent in preparing for these suits. One of them was prepared for trial, and witnesses taken to court, but when ready to begin the case, the parties, finding that we would not make any compromise, dropped the case (Brown of Barrington vs. Town of Rochester). Three others have been compromised at a sum which would hardly have been above the expense of defending the suits. One claim has been made during the past year for a fall upon the sidewalk, as claimed, resulting in a broken arm. This has been compromised in a satisfactory manner. There are now two suits brought against the town for damages said to have been caused on Portland street crossing, the horse being frightened by the cars. These we have called upon the Boston & Maine railroad to come in and defend.

THE CATTLE DISEASE

Was another question which confronted us upon assuming the town affairs. Three herds of cattle had been in quarantine for about three months, under a law of the state which was not well understood by state or town officers, and attorneys were at variance as to its meaning. We

tried to take a common sense view of the law, and by working the matter carefully with the state officers, have exterminated the disease in town for the present, at least, though it called for the destruction of four valuable herds. This caused an expense upon the town, over and above the amount recovered from the state, of about \$1200.

THE HIGHWAYS.

The highways and streets had been sadly neglected for two years previous, so that a large amount was required to get them even into passible shape. The main street need not be referred to as to its muddy condition in 1889, yet as repairs were made upon it, this all seemed to have been forgotten, but none of this work can be done without expense. This repair was done with concrete, for the reason that it could be done at less than one-third of the expense of macadamizing or paving, and as the streets must necessarily be cut up for sewerage before long, we deemed this course the best. As to the economy of still keeping up the highway district system of repairing roads, we can only say, so long as it is done by the town, the bills will be large, and no fair show for the money. No board of selectmen can overcome this, and as proof of this we can only refer to the amount of money spent in several districts, and in some of them ignoring anything said by the selectmen, and in several cases the selectmen had no notice that the amount was overdrawn, until the work had been done. If good and efficient work was given in return, the matter would not appear so ridiculous. The matter of good and economic road building seems to be a lost art, and few try to find it, yet a community is largely judged by its highways.

THE SCHOOL SUPPLIES,

A question with which the selectmen have nothing to do except pay such bills as the board of education may

order. No appropriation was made to raise money for this, yet the payments called for will be seen to be quite large. The payment of these bills require the selectmen to obtain checks from the treasurer and forward, so that a receipted bill may be on file, requiring a careful watch to obtain the proper vouchers. The better way would be to appropriate to each district a certain amount of money, and the district paying their own bills, and being obliged to keep within the appropriation.

THE NEW EAST ROCHESTER ROAD.

This road had been laid out by the county commissioners, and laid out by grade and profile. We received sealed proposals for the building of it, and when opened in May last found the bids to be, lowest, \$3,850; highest, \$8,000, with several intermediate bids. The lowest bid meant the bringing of a lot of Italians to do the work, and the money all to disappear from town. Consequently we contracted the building of the road for the sum of \$4,000, to be completed Sept. 30, 1890, having a good and sufficient bond for the performance of the work. Payments on this contract have been made in accordance with the contract on our part, but the road is not yet completed, and by laying over the winter will necessitate additional expense to the contractor, for which the town is in no way responsible.

OLD CEMETERY CONSERVATION FUND.

The town by the accepting of this fund at the March meeting, 1890, imposed upon the selectmen duties much more exacting than was at the time anticipated. The amount of book-keeping that this fund will require is a very considerable matter, as it requires the keeping of several accounts for each lot or grave for which there is a contribution, and then, where there is but fifty dollars contributed to a lot, if the funds are invested at six per

cent would give \$3 annually ; this sub-divided as per paper gives \$1.12 1-2, which must be laid out on lot agreeable to the wishes of surviving relatives. If any remains unexpended, this amount, with 37 1-2 cents, must be set aside, and to be invested by and accounted for by said authorities, this to become, with its income, an emergency fund, (the income to be added annually) for said lot for replacement and restoration of all existing stones, tablets, monuments, inscriptions, stone edging and fence. The remaining \$1.50 to apply to the cemetery at large, and any unused part thereof to be well and truly invested by said authorities, they, the said authorities, being accountable for, and to absolutely make good all losses of the same, and to be used for aforesaid general purposes. For the care of this fund, the book-keeping required, and safety of this fund, there is to be no compensation, unless the town or authorities shall hire the work done by another party. This, unless properly looked out for, is liable to cause controversy in the future.

INVENTORY OF THE TOWN OF ROCHESTER,
APRIL 1, 1890.

Number of polls, 1948,	\$194,800

The fiscal year for this fund will be placed at May 1st each year, for the purpose of accounting to the improvements during the month of May. This system will not give a full year's income for 1891, but after that time will work all right, if accounts are properly kept.

Respectfully submitted,

A. S. PARSHLEY,	} Selectmen of Rochester.
JOHN W. TIBBETTS,	
EDWARD E. EVANS,	

ANNUAL REPORT
OF THE
ROCHESTER BOARD OF HEALTH
FOR 1890-91.

During the year ending April 1, 1891, there were reported to the Board of Health 121 cases of contagious diseases, 75 being diphtheria; 28, scarletina; and 18, typhoid fever, with a mortality of 34,—31 fatal cases of diphtheria and 3 of typhoid fever. There were no deaths during the year from scarletina, the disease in a large per cent. of the cases assuming a very mild form.

Of the diphtheria cases, a large majority were among our foreign population, there being no less than 45 cases reported among the French, of which 21, or nearly one-half, terminated fatally. The remaining fatal cases were about equally divided between the Irish and American inhabitants. The disease has been confined almost exclusively to children under six or seven years of age.

About the middle of September, 1890, after a period of nearly three weeks of incessant rain, an epidemic of diphtheria appeared in Gonic village, cases being reported by physicians in four or five houses almost simultaneously. The houses were immediately quarantined, the schools were closed for a short time, and no new case appeared outside of the houses originally quarantined, and no case has been reported in that village since Oct. 1, 1890. To ascertain the cause of diphtheria is often a matter of

extreme difficulty, and there is no doubt but what many cases in our midst have originated *de novo*. In some instances, however, the cause is readily discovered, and in nearly every case it can be attributed to unsanitary conditions, such as imperfect ventilation of houses, overcrowded tenements, uncleanness, dampness, poorly constructed sink drains, an almost entire lack of drainage, etc. In several instances contagious diseases were brought in from adjoining towns, and in one case a French family moved here from a town in the northwestern part of the state with one or two children sick with diphtheria. The board is decidedly of the opinion that the mortality, especially from diphtheria, might have been somewhat reduced during the past year if physicians has been summoned in the very first stage of the disease.

The health officers have issued sanitary regulations, which have been conspicuously posted in the three villages of the town, have made occasional inspections, have attended promptly to all complaints, and have abated all nuisances which have been brought to their attention. Physicians promptly notify the board of the existence of contagious diseases, and these are reported monthly to the State Board of Health. Infected houses have been placarded, public funerals are forbidden in deaths from diphtheria and scarlet fever, and houses in which these diseases have existed are required to be disinfected.

The great need of this village is a thorough system of sewerage, and as our population is constantly increasing this need is becoming more and more apparent to all. The present limited supply of sewers for the removal of surface water is wholly inadequate and unfit for carrying off the contents of sinks and water-closets, and unless these sewers are constantly flushed during the summer and fall months of the year, they become veritable death traps. It would require, perhaps, several years to complete such a

system as is imperatively demanded, but if our citizens have any regard for the health of the community, or have any desire to keep pace with sister towns and cities of this state, they will take steps to commence such a work at once. Until such a system of sewerage is established in this village, which in all probability is soon to become a city, it will be impossible to maintain the place in a good sanitary condition, and any board of health, no matter how untiring in its efforts, will be powerless to prevent the occurrence and spread of contagious diseases.

A tabulated statement is subjoined, showing at a glance the number of cases of contagious diseases for each month of the year, also the number of deaths and the nationality.

BOARD OF EDUCATION.

HORATIO L. CATE, PRESIDENT.

CHARLES W. BROWN, TREASURER.

NELSON E. B. MORRILL, SECRETARY.

ALBERT L. RICHARDS.

PHILANDER VARNEY.

ELIAS F. SMITH.

REPORT OF DISTRICT No. 8.

The schools for the past year have been marked with general prosperity and good progress. There has been the usual amount of contagious diseases among the scholars, which will always tend to break up our schools to a greater or less degree. The winter term is always very trying to our primary schools, and the diminished attendance has been decidedly marked during the last term. The Gonic schools have been unusually afflicted, especially the primary grade. Diphtheria, which made its appearance in that village during the fall and continued with more or less severity through the winter, has reduced the average attendance very materially. Aside from the diminished attendance, caused by the severity of the weather, sickness, etc., all of our schools have suffered more or less from the irregular attendance of some pupils, through indifference on the part of pupils or parents. It must not be expected that scholars can maintain their rank in the class when they absent themselves one or two days each week from their recitations. When the rank of such pupils are made up, and they fall below the per cent. required for advancement, then the teacher or supervisor is blamed because they are not promoted. The policy has been the past year to promote only those who have acquired the requisite scholarship; of course there has been some dissatisfaction expressed in consequence. In the opinion of the board of education, it is no advantage to any scholar to advance them beyond their ability to comprehend.

Thoroughness should mark the course of every pupil, and be the accepted motto of every teacher. It is not the amount of work we go over but the ability to comprehend what we have studied that is to give us mental power, and which is the true test of scholarship. Our teachers have generally endeavored to instruct their pupils in the principles of morality, and to impress upon them the fact that something more than a knowledge of books is requisite to true manhood. May the importance of this become indelibly stamped upon each teacher, and may they not only be able to lead the pupils to a broader scholarship, but by precept and example set before them the importance of a higher standard of manhood and a purer womanhood.

In the matter of music, which appears to have become a fixed fact in our schools, there has been decided progress under the excellent tuition of Prof. Bundy: scholars and teachers have taken new interest, and from the primary grade to the high school there has been marked improvement; in fact, until this year, but very little had been done with vocal music in the high school. Superior as our schools are, compared with fifteen or twenty years ago, yet there is decided room for improvement. We labor under some disadvantage in our inability to pay our teachers as much as Massachusetts, and we have suffered from time to time in the loss of some of our best teachers in consequence. It would be to the improvement of our schools if drawing could be taught; we are far behind our neighbors in this respect; we hope in the near future this will become a prominent feature in our schools. An experienced teacher in penmanship, to have the charge of this branch of instruction in all the grades, is of great importance, and under an efficient teacher would be a good step in the right direction. While all our teachers are excellent in their chirography, everyone must understand that something besides ability to write well is necessary

to teach pupils good penmanship. Certainly there are few if any accomplishments more to be desired by any young man or woman, or that will open the way to lucrative positions more readily, than the ability to write a good hand. These improvements mean more money, and when the district is willing to raise a sufficient sum to support these additional branches, the board of education will undoubtedly take the necessary steps to introduce them.

No very extensive improvements have been made on the school buildings the past year. Some over eight hundred feet of slate blackboard has been put in. The house at East Rochester is now entirely furnished with slate, and one of the rooms at the high school building has been supplied with the same. The cost for the entire job was some over two hundred dollars; those boards will never need repairing, and will reduce the cost of crayon and erasers more than one-half, create less dust, which is very annoying as well as injurious to the health of pupils, and giving a surface that is perfectly smooth, making the work thereon much more satisfactory to both teacher and pupil. If the finances allow, a small amount of slate should be added each year until all the rooms are supplied.

Much has been said in reference to the old school building on Wakefield street. It is hoped that measures will be taken before long to erect a new school building, and of sufficient capacity to accommodate the Wakefield street and Main street schools. Is it not well for the district to consider the advisability of disposing of the Main street property and building a house as suggested above? The Main street house, if to be kept for school purposes, needs to be thoroughly repaired and supplied with suitable heating apparatus. To put it in such condition as is necessary for convenience and comfort, would require a considerable outlay, and when done we have a house in an undesirable locality, without play ground, and too near a busy thor-

oughfare for the safety of the pupils. The steam boiler that was put into the Rochester house when the house was built, gave out just before the close of the winter term, necessitating the closing of the schools of that place nearly a week before the expiration of the term. A new boiler has been contracted for, and will be in readiness for the commencement of the spring term. It was thought advisable, taking into account safety as well as economy, to put in an Exeter sectional boiler.

All text books are now by law supplied by the town and good results therefrom are already seen; the pupils are now supplied promptly at the commencement of each term. Under the old system sometimes it would take a week before the classes would get supplied, and then perhaps only partially so; some pupils were constantly without the necessary text books. Every scholar is held responsible for the careful usage of all books loaned him for study. If any desire to own their books, they have the privilege of purchasing them at the wholesale price. It is desirable that there be improvement in our schools year by year, that our teachers may become more and more efficient, as they may be taught in the school of experience, and may it be the aim of all to raise our schools to a position second to none in the state. To this end the hearty co-operation of every friend of the public school is solicited.

TEACHERS AND SALARIES.

HIGH SCHOOL:

Wm. W. Allen, Principal,	. . .	\$1500	per year.
J. Sherman Richardson, Assistant,	. . .	600	"
Mrs. Wm. W. Allen,	" . . .	550	"

• School District No. 8. •

CHAPTER 1.

RULES OF THE BOARD OF EDUCATION.

SECTION 1. *Organization.*—On the first secular evening after the annual meeting of the school district, the board of education shall meet at seven and one-half o'clock for organization.

SECTION 2. *The officers* of the board shall be a president, secretary and treasurer chosen by ballot and major vote.

SECTION 3. *Meetings.*—Regular meetings of the board shall be held on the second Friday evening of each month at seven and one-half o'clock. Special meetings of the board shall be called by the secretary, whenever he may deem it necessary, or at the request of two members.

SECTION 4. *Quorum.*—A majority of the members shall constitute a quorum.

SECTION 5. *Rules.*—Meetings shall be conducted, except when special provision is made, in accordance with the usual parliamentary rules.

SECTION 6. *The Duties of the President* shall be to call the members to order at the appointed time, and preside at all meetings. In his absence a president pro tem. shall be elected.

SECTION 7. *The Duties of the Secretary* shall be to call special meetings, as provided in Section 3, to keep a fair record of the doings of the board in a book suitable for that purpose, in which he shall enter all the proceedings in full, including all important reports of committees, and also the names of the members present at each meeting; to conduct all necessary correspondence of the board, and perform all other duties that appropriately belong to the office of secretary.

SECTION 8. He shall receive all formal applications for position of teachers or other offices, place them on file for the inspection of the board, and shall notify all school officers of their election or appointment.

SECTION 9. He shall also seasonably furnish to the officers of the state all the returns required by statute to be made to them; shall promptly inform teachers and janitors as to what members of the board are charged with the several duties of procuring fuel, making occasional repairs, furnishing miscellaneous supplies, books, etc., at the expense of the town or district; shall see that school officers are supplied with copies of the last revision of the rules and regulations, and promptly notify them of any change made in them.

SECTION 10. *The Treasurer* shall have the general supervision of all financial matters relating to the schools; shall draw the money to which the district is entitled, from the town officers as occasion may require, and receive and collect all money otherwise due the district; shall pay the teachers of all the schools, and the janitor of the high school building, a proportional amount of their salaries at the middle and close of each term, and all other bills when presented, if certified as required in Section 13; and shall annually make and seasonably report to the board a careful estimate of the expenses of the schools for the ensuing year, to be laid before the district at its annual meeting.

SECTION 11. *Special Duties of Members.*—Members of the board may be charged with the performance of special duties, as occasion may require.

SECTION 12. *Supervising Members.*—The members to whom shall be assigned the duty of supervising the schools shall examine teachers and report their qualifications to the board; visit the schools systematically, direct the methods and details of instruction, pointing out defects and suggesting remedies; and shall give special attention to schools taught by new and inefficient teachers. They shall procure and keep each school supplied with the authorized text books and supplies: shall secure, as far as possible, harmony and uniformity of work in all departments of the same grade, and keep a scheme of the order of exercises in all the schools. In conformity to Chapter 5 of these Rules and Regulations, they shall examine scholars and assign them, excepting such as are applicants for admission to the high school, to the proper grades, and may direct the promotions to be made; and may degrade any who in their opinion are in a grade more advanced than their qualifications should allow, subject, however, to the approval of the board. But the qualifications of applicants for admission to the high school, by promotion or otherwise, they shall report to the board. They shall keep themselves informed in regard to all improvements and suggestions made upon the subject of school instruction, and recommend the adoption of such as they deem practical and expedient. Subject to the approval of the board, they shall prescribe the boundaries of the different schools and see that they are observed; direct and assist the truant officer in his duties, and try to improve the school attendance; and, finally, shall cause these rules and regulations to be strictly observed, and report to the board all violation or neglect of them.

SECTION 13. *Bills.*—Each member shall certify upon

bills by him contracted and payable by the district, the accuracy of the same before they shall be paid; and the supervising members shall approve and seasonably pass to the selectmen all bills payable by the town for text books and supplies.

SECTION 14. *Election of School Officers.*—Teachers of all schools, and also the janitor of the high school building, shall be elected annually in July by ballots bearing the name of the person voted for, and by a major vote of the board. But whenever for any reason there may be a delay in filling any position, or whenever a vacancy shall occur after the annual election, it may be filled at any time in the same manner.

SECTION 15. *On Probation.*—Any officer named in the last section not holding at the time of his election a position in the district of the same grade as that to which he is elected, shall be on probation, his services to expire at the close of any term of school, in case his election is not confirmed for the balance of the official period by a vote of the board.

SECTION 16. *Tenure of Office.*—All teachers shall hold their positions until the next annual election, and the janitor named for one year ending the first day of August after the next annual election, except as provided in the last section, unless in the meantime they are removed by the board. Teachers will not be allowed to resign without giving at least one month's notice, except for causes satisfactory to the board.

SECTION 17. Other janitors may be appointed by the board, or by any authorized member at any time, and for such periods as may be deemed expedient.

SECTION 18. *No Substitute* shall in any case occupy the place of any teacher until the approval of the board has been obtained and the compensation determined. But whenever any temporary indulgence or leave of absence

may be desired, application may first be made to the supervising members.

SECTION 19. *The Annual Salaries* of school officers shall be determined at the time of their election, and, if elected on probation, their salaries shall not be subject to a change at time of confirmation.

CHAPTER II.

DUTIES OF TEACHERS AND DISCIPLINE OF SCHOOLS.

SECTION 1. *General Duties.*—Teachers shall follow the course of study, and make teaching their only regular business, and during term time shall not instruct the pupils in other than the branches prescribed in the course, nor give instruction to private pupils without the consent of the board first obtained. They shall prepare themselves to instruct their several classes faithfully, impartially and effectively, according to the regulations prescribed by the board, and the provisions of the laws of the state; and in all subjects and methods in which it is possible, shall teach the reason with the subject or method, and make every effort to develop the reasoning faculties of their pupils. They shall strive earnestly to promote diligence, courtesy and obedience, and to inspire their pupils with an enthusiasm for study.

SECTION 2. *The Principal of the High School* shall have the management and control not only of the high school scholars, but of all others in the building or about the premises, when not in the rooms with their respective teachers. He shall also, when his assistance is needed, attend to cases of discipline in any part of the building. Other teachers will cheerfully co-operate with him in the execution of his plans and wishes.

SECTION 3. *Opening of Schools.*—The schools shall be opened punctually at the appointed time, and the morning

exercises shall begin with the reading of a selection of the Scripture. It is recommended that this reading be followed by some devotional exercise.

SECTION 4. *Order of Exercises.*—Every teacher shall prepare and keep an order of exercises in the schoolroom, where it may be seen by the scholars and visitors.

SECTION 5. *Physical Exercises.*—There shall be short calisthenic exercises as often as once each session in all except the high school, and teachers, especially those of the lower grades, shall endeavor to relieve their pupils by a variety of exercises, change of position and the like, as far as can be done without interfering with the school work.

SECTION 6. *Discipline.*—Teachers shall aim by precept and example to improve the manners and morals of their pupils. They shall exercise the same authority over them during recesses and on the premises as in the schoolroom: shall avoid corporal punishment in all cases where good order can be preserved by milder means, and when inflicted they are to preserve their self control, and refrain from exhibiting anger or impatience.

SECTION 7. *Suspension and Expulsion.*—The principal of the high school building, or a teacher in any other building, may suspend from school a scholar of any grade excepting I, II and III, for violent or obstinate resistance to authority or gross misconduct, but he shall immediately report the case to a supervising member of the board, and to the parents or guardians of the scholar. When the conduct, example or general influence of a scholar becomes very injurious, and his reformation appears hopeless, or he manifests a determined disregard of the rules and good order of the school, he may be expelled by the board. Any scholar suspended, on giving evidence of amendment, may be restored by the supervising members, otherwise the case shall be reported to the board for its action. Any scholar

expelled may be readmitted on probation, and on ample proof of reformation may be restored by vote of the board.

SECTION 8. *Scholars Leaving Under Censure.*—Teachers shall give immediate notice to the supervising members, whenever a pupil shall leave under censure, and such pupil shall not be permitted to attend any public school in the district, except by order of such members.

SECTION 9. *Care of Schoolrooms and Premises.*—Teachers shall be in their respective schoolrooms at least fifteen minutes before the opening of each session, to admit pupils, suppress boisterous or disorderly conduct, and see that no school building, room or property is damaged or defaced; that the schoolrooms are clean, and that entries, yards and out-buildings are kept in good condition, and in executing the last requirement they may command the services of the janitors. They shall also see that the windows in their respective rooms and entries are fastened, and the doors locked, at the close of the exercises of each session of school. During intermission pupils shall be allowed to remain in none but the high school building, and as few as possible in this. These shall occupy only such rooms as the principal shall assign them, and each sex shall be restricted to a separate room. Teachers shall make such rules as are necessary and reasonable for good order and neatness on the school premises.

SECTION 10. Teachers shall keep the doors leading to the basements of the schoolhouses on Maple street, School street and at East Rochester, locked, and allow no pupil, excepting such as may be acting as janitors, to enter these basements unless by special permission.

SECTION 11. *Liability for Damages.*—Teachers shall be held responsible for the school property entrusted to their care, but all injury done to it by any scholar shall be paid for by the parent or guardian.

SECTION 12. *Profanity, Indecent Writing and Willful*

Damage.—Any pupil who shall, on or near the school premises, use or write any profane or indecent language, draw or exhibit any obscene picture or representation, or shall wilfully damage or deface any school property, shall be liable to expulsion and prosecution.

SECTION 13. *The Use of Tobacco* in any form, and games of chance, on or near the school premises, are strictly prohibited.

SECTION 14. *Ventilation and Temperature.* Teachers shall be extremely careful that their rooms be properly ventilated, that the temperature is kept as near as possible to 68 degrees Fahrenheit, and that children are not allowed to sit in a draft of air.

SECTION 15. *School Registers.*—Teachers shall fill up and return their school registers in strict conformity to the directions contained in them, except when otherwise directed, and shall also keep for their use and for that of the supervising members of the board, an accurate list, giving the full name, age and grade of each pupil, and the name of the street upon which he resides.

CHAPTER III.

DUTIES OF JANITORS.

SECTION 1. *Janitors* of all schools are to have charge of all rooms in the school building, and of all school yards and out-buildings, and shall keep them in good condition.

SECTION 2. They shall keep all necessary paths in the yard free from snow and ice, sprinkle the steps and walks with sand when slippery, examine all outbuildings daily, and keep them in perfectly good order, promptly report all nuisances or defacements committed in them to the teachers, with the names of those they may detect in, or suspect of, committing the same, and shall unlock them in the morning

and lock them at night, before and after each school day. They shall sweep every school room as often as every alternate school day, and the halls and passageways as often, at least, and oftener, if necessary, to keep them in a neat condition, and shall dust all furniture each morning before the opening of the school session. They shall have each school room properly warmed at least thirty minutes before each school session, and shall seasonably notify the member of the school board charged with the duty of furnishing fuel when any material for making or kindling fires, or other supplies necessary to the performance of their duty, are wanted. When not present themselves, they shall, at all times, except during the session of the school or presence of the teachers, keep the windows fastened and the doors locked, and, except at the high school building, allow no one to enter any school building in the absence of the teachers.

SECTION 3. *The Janitor of the High School Building* shall perform such of the duties prescribed in the two previous sections as are not inapplicable to his school building and premises. During each term of school he shall devote his whole time to his duties as janitor, except that he may also perform the duties of truant officer if appointed to that office by the school board and paid by the town; shall at all times keep the premises in a neat and orderly condition, and during vacations shall have the care and oversight of them and see that no damage is done. He shall wind and regulate the clocks and keep them in good order, shall thoroughly cleanse all rooms, halls, passageways and all windows as often as twice each year. He shall have the charge and management of the wind-mill for pumping water, keep the school building properly supplied with water, and shut it off at the beginning of each vacation and every night in severe weather. He shall give his personal attention to the

heating apparatus while in use, and keep it in good condition at all times.

SECTION 4. He shall be present half an hour before the beginning of the morning session of schools, during recesses, the entire intermission, and twenty minutes after the close of the afternoon sessions; shall co-operate with the teacher in the maintenance of good order about the premises; assist in the supervision of pupils during recesses, and while forming to march in and out of the building; shall during intermissions, have charge of all pupils allowed to remain in the building, restrict them to the rooms assigned them by the principal, suppress all boisterous and disorderly conduct, see that they do not damage or deface the building, or otherwise violate the school regulations; and shall allow no pupils to enter the building in the absence of their teachers. He shall report to the principal each day for such services as may be required of him.

SECTION 5. *Repairs.*—He shall make such repairs as he conveniently can, such as setting glass and the like. All other needed repairs, all damages and nuisances, he shall report to the board of education.

CHAPTER IV.

THE SCHOOL YEAR, SCHOOL HOURS, HOLIDAYS AND VACATIONS.

SECTION 1. *The School Year* shall begin the Monday nearest the first day of September, and shall consist of thirty-six weeks, and be divided into three terms of twelve weeks each. The fall term shall commence at the beginning of the school year; the winter term on the Monday following a vacation of two weeks; and the spring term on the first Monday of April.

SECTION 2. *Holidays.*—Every Saturday, Fast Day,

Christmas Day and Decoration Day shall be allowed as holidays. When either of the two days last mentioned shall occur on Saturday or Sunday, the following Monday shall be allowed instead. Teachers may close their schools one day each term to visit other schools, provided the selection of the day and of the schools to be visited shall be approved by the supervising members of the board. Other holidays will be granted only by vote or consent of a majority of the board, obtained by some member thereof. Days when the weather is very inclement, teachers will be required to have but one session of school.

SECTION 3. *School Sessions*.—There shall be two daily sessions of all the schools. The forenoon session shall begin at 8.45 o'clock and continue three hours; the afternoon session for all schools in Rochester village shall commence at 1.30 o'clock and continue two hours; the schools at Gonic and East Rochester shall commence at 1.15 o'clock and continue three hours for the grammar grades, and two hours for the intermediate and primary grades, and the Adams Corner school at 1 o'clock and continue three hours.

SECTION 4. *Recesses*.—Every school shall have a recess of twenty minutes each, with the exception of the schools in the high school building, where there shall be no recess in the afternoon. In no case shall a pupil be wholly deprived of a recess as a punishment.

CHAPTER V.

ADMISSION, PROMOTION, EXAMINATION AND ATTENDANCE.

SECTION 1. *Infectious Diseases*.—No scholar or teacher shall be allowed to attend school from any house in which small pox, varioloid, scarlet fever, measles or diphtheria prevail; and no scholar or teacher known to have been exposed to these diseases shall attend school until all

danger from them is passed; and no one who has been afflicted with any of them shall be permitted to enter school until convalescence is complete. When any pupil shall be afflicted with any of these diseases, the teacher shall promptly report the fact to the supervising members of the board.

SECTION 2. *Scholars Residing Beyond the Limits of the District* may be permitted to attend its schools, except in cases where such attendance would crowd any school beyond its accommodations. When so permitted they shall pay tuition at or before the middle of each term, as follows: In the high school six, in the five higher grades of other schools four, and in all other grades three dollars a term.

SECTION 3. *Boundaries*.—Teachers shall receive or retain in their schools only those scholars whose residences are within the prescribed boundaries of their respective schools, except by consent of the board. Parents or guardians may, in case of their removal from the prescribed boundaries of any one school to those of another, continue their children in the school they are attending till the end of the term. No scholar, however, shall be received from one school into another without the approval of the supervising members of the board, or without a certificate of transfer from the teacher whose school he leaves, stating the name, age, grade, standing and reason for the transfer, and the teacher receiving such scholar shall immediately acknowledge the receipt of the certificate.

SECTION 4. *Admission*.—Children, if residing within the boundaries of the school, and qualified to enter some one of the classes, shall be admitted to the lowest grade of school at any time without a certificate, except such as may be required by the provisions of the last section, but if unable to read they shall be admitted only at the beginning or middle of the term. A scholar may be admitted

to other grades by promotion, as provided in the following sections, 7 and 8, or, if he has not been a member of a lower grade during the preceding term, then, after due examination, by a certificate stating the grade which the scholar is qualified to enter, signed, if to the high school, by the full board, otherwise by the supervising members of the board. No child under five years of age shall be admitted to any school.

SECTION 5. *Written Examinations* shall be given in all classes of the high school and in grade X of the other schools, at the middle and close of each term, sufficiently severe to test the pupil's knowledge of the work of the previous six weeks, and a copy of the questions used shall be returned to the secretary of the board within one week after the examination, to be placed on file.

SECTION 6. *Ranking.*—On these examinations, and likewise on the daily work, scholars are to be ranked, and a unit of the rank on each examination shall have one-half the rate of a unit of the averaged rank on the daily work during the time covered by the examination. In determining each scholar's average rank, two units on a ranking scale of one hundred shall be deducted for every instance of disobedience or improper conduct. A record of each pupil's rank in each subject, and also his average rank, shall be kept by the teacher in a suitable book, which shall at all times be open to the inspection of the board.

SECTION 7. *Promotions, Etc.*—Scholars whose rank in each subject of the work in the preceding year shall not fall below 55 per cent., and not below 65 per cent. on the entire work, after deductions for disobedience and improper conduct, shall be promoted one grade annually, at the beginning of the fall term. Scholars whose rank shall at any time fall below the standard required for promotions, may be put into the next lower grade, unless in the judg-

ment of the board extenuating circumstances may justify a longer retention in his grade.

SECTION 8. Scholars in all other grades shall be promoted or degraded, as the supervising members of the board may deem advisable, subject, however, to a revision by the board.

SECTION 9. *Advanced Standing.*—No scholar admitted to advanced standing in the high school shall be permitted to compete for class honors, unless he joins his class as early as the commencement of the second year, and is critically examined and ranked on the previous work of the class, or its equivalent.

SECTION 10. *Monthly Reports* of the department of each pupil in the grades named in Section 5, also of his rank in each subject and his average rank, shall, whenever deemed advisable, be sent to the parent or guardian, together with a notice, first, that the scholar's department is unsatisfactory, and asking for an interview; second, that the scholar's lessons are not satisfactorily prepared, and requesting the co-operation of the parent or guardian.

SECTION 11. *Excused Absence.*—Legitimate causes for absence from school are sickness, domestic affliction, danger of serious or imprudent exposure of health, necessary absence from town, and no others. Absence from such causes shall not effect the standing of any scholar, provided a written excuse or personal explanation from his parent or guardian is seasonably furnished, when deemed necessary, and the scholar passes within a reasonable time a satisfactory examination in the studies pursued during his absence.

SECTION 12. *Unexcused Absence, Tardiness, Leaving School Before Close of Term.*—Tardiness shall be considered equivalent to one-fourth of a day's absence; and any scholar in any but the three lowest grades of school, whose absence and tardiness shall amount to seven days

in any term, or who shall have left school before the close of a term, shall cease to be a member of the school, and shall be re-admitted only by the written consent of the supervising members of the board, on condition of making up within a reasonable time the lessons lost. Scholars who are absent one-fourth of the time in any term may be put into the next lower grade.

SECTION 13. *Leaving School During a Session.*—No scholar, except in the two lowest grades of school, shall be allowed to leave the school during a session or before the dismissal of the school, unless on account of sickness or some pressing emergency of which the teacher is to judge; and a written or personal request from the parent or guardian shall be required when the necessity is not evident.

SECTION 14. *Truancy.*—Teachers shall report the names and residences of all truants and of those suspected of truancy, together with the names of their parents or guardians, to the truant officer as early as practicable, by mail or otherwise. They shall keep a record of the names of all truants, which shall be open at all times to the inspection of the members of the board and of the truant officer.

CHAPTER VI.

TEXT BOOKS AND STUDIES.

SECTION 1. *Courses of Study.*—The high school course of study covers a period of four years, and contains an English, English and Latin and Classical division, as at present arranged, subject to such modifications as the board shall direct. The course for the other schools shall be divided into ten grades, each grade including an average year's work, and designated by Roman numerals from I to X, beginning with the lowest, the number corresponding with the year in the school.

SECTION 2. *Selecting Divisions.*—Pupils will be expect-

ed to decide when they enter the high school which of the divisions they will pursue, and will not be permitted to change after the commencement of the second year.

SECTION 3. *Graduation.*—Scholars of the English division will not be permitted to compete for the valedictory. Those who have completed any division of the high school course, and have at the time the rank required for the annual promotions, will be allowed to graduate, and be awarded suitable diplomas

SECTION 4. *Change of Text Books and Studies.*—No change shall be made in the high school course of study or in the text books used in the schools, and no new text books introduced, except by a major vote of the board at a regular meeting, notice thereof having been given at a previous meeting. But no vote in relation to any change or introduction of text books shall be taken while any school book agent is present at the meeting or known to be in town.

SECTION 5. *Care of Books.*—School books and supplies furnished by the town or district shall be charged to and in care of the teachers, and at the end of each term they shall account for them to the supervisor. They shall loan them to their pupils, and see that they are carefully used, and not marked, defaced or injured. Pupils shall be required to replace or pay for such as they lose or injure. All reading books, pens, penholders, and also such slates, pencils and other books as pupils do not ordinarily need to take home for study, shall remain in the schoolrooms, and pupils shall there have them in their possession only while they absolutely need to use them, and after each instance of such use they shall be returned to the possession of the teacher. Such books and supplies as pupils are allowed to take from the schoolrooms shall be charged to them (the books being first numbered) by the teachers loaning them, in record books provided for the purpose, in

which shall also be noted the time and their condition when loaned.

SECTION 6. *In Books Belonging to the District* shall be written or printed the phrase, "The Property of School District No. 8, Rochester, N. H.," and in those belonging to the town the phrase, "The Property of the Town of Rochester," together with the rules to be observed in their care and use.

SECTION 7. *Books for Reference* only shall also be numbered, and when any are in the possession of pupils they shall be charged to them. Scholars shall be encouraged and directed to use, but not permitted to take them from the school buildings, except by special permission of the teachers, and then not allowed to retain them longer than the beginning of the next school session.

SECTION 8. *Text Books and Supplies Needed.*—Whenever a school is not sufficiently furnished with text books and supplies, the teacher shall report the fact to the supervising members of the board in writing, specifying the books and supplies needed.

SECTION 9. It shall be the duty of all the school officers to acquaint themselves and the scholars thoroughly with the school regulations, and within their respective jurisdictions to enforce them.

SECTION 10. These rules and regulations, or any part of them, may be repealed, amended or additions made thereto by a major vote of the board, notice thereof having been given at a previous meeting.

EXTRACTS FROM STATE LAWS.

COMPELLING PARENTS AND OTHERS TO SEND CHILDREN TO SCHOOL.

From Chapter 91 of the General Laws :

SECTION 14. Every parent, guardian, master or other person having the custody, control or charge of any child between the ages of eight and fourteen years, residing in any school district in which a public school is annually taught for the period of twelve weeks or more, within two miles by the nearest traveled road from his residence, shall cause such child to attend such public school for twelve weeks at least every year, six weeks at least of which attendance shall be consecutive, unless such child shall be excused from such attendance by the school committee of the town, or the board of education of such district, upon its being shown to their satisfaction that the physical or mental condition of such child was such as to prevent his attendance at school for the period required, or that such child was instructed in a private school or at home for at least twelve weeks during such year, in the branches of education required to be taught in the public schools, or, having acquired those branches, in other more advanced studies.

SECTION 16. Any parent, guardian, master or other person violating the provisions of the fourteenth section of this chapter shall forfeit and pay the sum of ten dollars for the first offence, and the sum of twenty dollars for the sec-

ond and every subsequent offence, to be recovered in an action of debt in the name of the district within whose limits the penalty was incurred, by the school committee of the town or board of education of such district. All penalties recovered shall be paid to the district and added to the school money thereof.

EMPLOYMENT OF CHILDREN IN MANUFACTURING AND MECHANICAL ESTABLISHMENTS.

From Chapter 91 of the General Laws, as amended by Chapter 56 of the Laws of 1881 :

SECTION 11. No child under sixteen years of age shall be employed in any manufacturing establishment, unless he has attended some public school or private day school where instruction was given by a teacher competent to instruct in the branches taught in the common schools, at least twelve weeks during the year preceding, and no child under said age shall be so employed, except in vacation of the school in the district in which he resides, who cannot write legibly and read fluently in readers of the grade usually classed as third readers.

SECTION 12. No child under the age of fourteen years shall be employed as aforesaid, unless he has attended school as aforesaid at least six months during the year preceding, or has attended the school of the district in which he dwelt the whole time it was kept during such year; and no child under twelve years of age shall be so employed, unless he has attended the school of the district in which he dwelt the whole time it was kept during the year preceding.

SECTION 13. The owner, agent or superintendent of any manufacturing establishment, or any person connected therewith, who shall employ in any such establishment

any child under the age of sixteen years, without having a certificate signed by a majority of the school committee of the town or city in which the child resides, or by such person or persons as they may designate for that purpose, that such child has attended school as required by sections eleven and twelve of this chapter, shall be fined not exceeding twenty dollars for each offence.

From Chapter 25 of the Laws of 1887:

SECTION 4. No child under thirteen years shall be employed in any manufacturing or mechanical establishment in this state. Whoever, either for himself or as superintendent, overseer or agent of another, employs or has in his employment any child in violation of the provision of this section, and every parent or guardian who permits any child to be so employed, shall be punished by a fine of not less than twenty-five nor more than fifty dollars.

TRUANTS.

From Chapter 91 of the General Laws:

SECTION 6. Any town may make by-laws concerning habitual truants and children not attending school, without any regular and lawful occupation, between the ages of six and sixteen years, and to compel the attendance of such children at school, not repugnant to law, and may annex penalties for the breach thereof, not exceeding ten dollars for each offence.

SECTION 7. Such towns may appoint three or more officers to enforce such laws, either of whom, and no other, may make complaint for such offences, and shall be authorized to serve any process relating thereto.

SECTION 8. Any offender against such by-laws, upon conviction, may, instead of such fine, be sentenced to the Reform School for a term not exceeding one year.

SECTION 9. Any such offender, on conviction and sentence to pay such fine, may, in default of payment, be committed to the Reform School till the same be paid, or he is otherwise discharged, but the court or justice imposing such sentence may at any time discharge such offender on proof that he is unable to pay said fine, and has no parent, guardian or person chargeable with his support able to pay it.

SECTION 10. Such offender so convicted may give bond to the town in the penal sum of twenty-five dollars, with sufficient sureties, approved by the court or justice before whom he was convicted, conditioned to attend regularly some district or other school kept in such town, for one term next ensuing, when the same is kept, to comply with the regulations thereof, and to be obedient and respectful to the teacher; and his fine may thereupon be remitted by such court or justice on payment of the costs.

ELECTION OF TRUANT OFFICERS.

Chapter 42 of the Laws of 1881.

SECTION 1. The superintending school committees and boards of education in the several towns and cities of the state are hereby authorized to elect truant officers for said towns and cities, and to fix their compensation at a reasonable rate, which compensation shall be paid by the respective towns and cities.

SECTION 2. Said truant officers may be discharged by said committees for cause, but unless sooner discharged shall hold their offices for one year, or until their successors shall be appointed and qualified.

SECTION 3. It shall be the duty of said truant officers, under the direction of said committees, to enforce the laws of the state and the ordinances of said towns and cities, and the regulations of said committees not repugnant to

law, in regard to truants and children between the ages of six and sixteen not attending school, and without any regular and lawful occupation, and to compel the attendance of such children at school in obedience to law and to the regulations of said committees.

SECTION 4. Said truant officers shall also, if required by said committees, enforce the laws in regard to children employed in manufacturing establishments, without attending school as required, and shall perform such service in that behalf, as may be required by said committees.

SECTION 5. This act shall take effect from its passage. (Approved August 4, 1881.)

BY-LAWS IN REFERENCE TO TRUANT CHILDREN.

Adopted by the town of Rochester, N. H., at a special meeting, July 21, 1883.

SECTION 1. Any child in this town between the ages of six and sixteen years, without any regular and lawful occupation, who shall, except in cases of ill health, neglect to attend school, or become an habitual truant, shall, on conviction thereof, be fined not less than one nor more than ten dollars. And for the purposes of these by-laws all children between the ages aforesaid residing in this town who, without sufficient excuse, shall absent themselves from school four or more times in the course of any one school term, shall be taken and deemed habitual truants.

SECTION 2. Instead of the fine aforesaid any child convicted of such offence may be committed to the Reform School for a term not exceeding one year.

SECTION 3. Whenever any child between the ages aforesaid belonging to any public school in this town, shall be found during school hours in or near any street, square, public place or place of amusement or resort, without suf-

ficient excuse for said absence from school, such child shall, in the first instance, be apprehended and taken to such school, and notice given to the parent, guardian or master of the person so taken; and for any subsequent offence the offender shall incur the penalties prescribed in sections one and two of these by-laws.

SECTION 4. The police court of the town of Rochester shall have cognizance of all offences under these by-laws, as in other criminal cases.

SECTION 9. Any such offender, on conviction and sentence to pay such fine, may, in default of payment, be committed to the Reform School till the same be paid, or he is otherwise discharged, but the court or justice imposing such sentence may at any time discharge such offender on proof that he is unable to pay said fine, and has no parent, guardian or person chargeable with his support able to pay it.

SECTION 10. Such offender so convicted may give bond to the town in the penal sum of twenty-five dollars, with sufficient sureties, approved by the court or justice before whom he was convicted, conditioned to attend regularly some district or other school kept in such town, for one term next ensuing, when the same is kept, to comply with the regulations thereof, and to be obedient and respectful to the teacher; and his fine may thereupon be remitted by such court or justice on payment of the costs.

ELECTION OF TRUANT OFFICERS.

Chapter 42 of the Laws of 1881.

SECTION 1. The superintending school committees and boards of education in the several towns and cities of the state are hereby authorized to elect truant officers for said towns and cities, and to fix their compensation at a reasonable rate, which compensation shall be paid by the respective towns and cities.

SECTION 2. Said truant officers may be discharged by said committees for cause, but unless sooner discharged shall hold their offices for one year, or until their successors shall be appointed and qualified.

SECTION 3. It shall be the duty of said truant officers, under the direction of said committees, to enforce the laws of the state and the ordinances of said towns and cities, and the regulations of said committees not repugnant to

law, in regard to truants and children between the ages of six and sixteen not attending school, and without any regular and lawful occupation, and to compel the attendance of such children at school in obedience to law and to the regulations of said committees.

SECTION 4. Said truant officers shall also, if required by said committees, enforce the laws in regard to children employed in manufacturing establishments, without attending school as required, and shall perform such service in that behalf, as may be required by said committees.

SECTION 5. This act shall take effect from its passage. (Approved August 4, 1881.)

BY-LAWS IN REFERENCE TO TRUANT CHILDREN.

Adopted by the town of Rochester, N. H., at a special meeting, July 21, 1883.

SECTION 1. Any child in this town between the ages of six and sixteen years, without any regular and lawful occupation, who shall, except in cases of ill health, neglect to attend school, or become an habitual truant, shall, on conviction thereof, be fined not less than one nor more than ten dollars. And for the purposes of these by-laws all children between the ages aforesaid residing in this town who, without sufficient excuse, shall absent themselves from school four or more times in the course of any one school term, shall be taken and deemed habitual truants.

SECTION 2. Instead of the fine aforesaid any child convicted of such offence may be committed to the Reform School for a term not exceeding one year.

SECTION 3. Whenever any child between the ages aforesaid belonging to any public school in this town, shall be found during school hours in or near any street, square, public place or place of amusement or resort, without suf-

ficient excuse for said absence from school, such child shall, in the first instance, be apprehended and taken to such school, and notice given to the parent, guardian or master of the person so taken; and for any subsequent offence the offender shall incur the penalties prescribed in sections one and two of these by-laws.

SECTION 4. The police court of the town of Rochester shall have cognizance of all offences under these by-laws, as in other criminal cases.

ROCHESTER, N. H., January 1, 1891.

I hereby certify that the foregoing is a true copy of the record of all the Births, Marriages and Deaths that have been reported to the Town Clerk of the Town of Rochester for the year ending December 31, 1890.

FRED L. CHESLEY, *Town Clerk.*
